Climb a tree Challenge

One of the best ways to challenge yourself in the outdoors is to find a tree and climb it.

There are a few rules you must follow to keep yourself safe and avoid serious injuries

- Always check with an adult before you climb
- Make sure the tree you choose has no 'dead' branches that could snap easily when stepped on
- Always wear sensible flat footwear and never flip flops
- Check the branches for moss and plants that can be slippery especially when it is a wet day
- Do not climb too high (no higher than 2m to begin with) You can climb a bit higher when you are more confident
- Remember it is good to challenge yourself but you should always feel safe
- Take care climbing down and choose the same branches if you can.
